## DETAILED ACTION

### *Election/Restrictions*

The Applicant expressly elected the invention of claim 2 by canceling claim 1. By amendment, the Applicant amended claim 2 and newly added claims 3-23.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 2, drawn to CATV/interactive TV, classified in class 725, subclass 19.
- II. Claims 3-23, drawn to virtual reality environment with avatar, classified in class 715, subclass 706.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as providing a virtual reality environment with help assistance from an electronically displayed avatar. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
